Grounds Help NEEDED!

I guess it wasn't clear last month. Most of the grounds crew went north! Joe Klein can really use more help with mowing and grass work! The rains are coming! If you can spare a few hours to keep our field in good shape, please call or text [Joe Klein](#) at: (914) 420-8617. We have plenty of equipment and need some operators!

Our grounds crew is the major reason that we have the BEST and NICEST looking field in the State!

Our new runway should ease some of the mowing times but there is still a LOT of grass that needs to be mown and trimmed. Come help.

Runway News

Weather permitting, the material for the sub-strait should be delivered and installed this Saturday.

When the material is laid, we should be ready for the actual runway material!

The runway material application will require LOTS of help! Mostly wielding rubber mallets to drive stakes. I will broadcast an **ALL HANDS email asking for help in getting the material layed down are ready.**

I know that this project seems like it has taken forever, but I believe that it might be for the best. All of the weeds/grass that will be beneath our runway has been eliminated and we should be good for years.

Please watch for the email announcing the we need your help in laying the runway material.

Thanks

By Laws Rewrite

An update to our By-Laws has been submitted to the Board. Nothing spectacular, just aimed at bringing the club into the twenty-first Century.

About the biggest change is that the position of Membership Secretary has been eliminated as a stand alone position, and has been folded into the Treasurer's position. This change is because the Treasurer is really the member that tracks and updates the membership and also has access to the website. When the board approves the changes, everyone will be mailed a copy and there will be a period for discussion and amendments.

Instructors

The club currently has four instructor pilots: Dave Grenier, Joe Klein, Sean B Sutton and John Miller. If you would like to "brush up" on your skills under supervision, or would like to learn how to fly RC, please reach out to these guys. We could use a couple more, so if you feel qualified, talk to any of the current batch!

Monthly Dinner Outing

I'm glad that Keith and Lisa brought this back!
Our dinner this Wednesday (the 7th) will be 6:00 at:
Joey Ds 6401 Manatee Ave W, Bradenton, FL 34209
